Re: South Cavalcade Street site

Dear Mr. Tobin:

Bob Kier of Camp, Dresser and McKee (CDM) has brought an issue to my attention that I would like to clarify.

The RI/FS at the South Cavalcade site is being conducted under the provisions of a CERCLA Administrative Order (VI-8-85) signed by Koppers and the Environmental Protection Agency (EPA). Section X of that Administrative Order covers Sampling, Access, and Data/Document Availability. Per Section X, Steve Lawless and other CDM employees are EPA onsite representatives and, as such, have access to "... all records, documents and other writings.... (that) in any way pertain to work undertaken pursuant to this Consent Order." I am enclosing a copy of Section X from the CERCLA Administrative Order VI-8-85 for your records.

The above issue has not caused any problems and is probably one of many that will have to be clarified as EPA/CDM/Koppers/McBride-Ratcliff develop their roles in conducting the RI/FS.

Sincerely yours,

John Cochran
Regional Site Project Officer

Enclosure
